

# **SEVEN POSSIBLE PLANS FOR OUR SCHOOL AND CLASSROOMS**

age 6-14

---

Italian team 

1

# SHARED HANDBOOK

Deciding few simple rules with teachers, discussing them with the students and challenging everybody to follow.

2

# INVOLVEMENT OF LOCAL MUNICIPALITY

Some issues (like heating or waste recycling) depend on them.

3

# PLASTIC CLEANING

Organized with the involvement of Plastic Free Association to collect garbage and to clean some specific places in or outside town.

ALTERNATIVE: invite pupils and their families to participate in an event already scheduled by Plastic Free.

4

# ONE DAY PLASTIC FREE PER WEEK

Setting a week-day when pupils bring a snack for the break with no packaging.

5

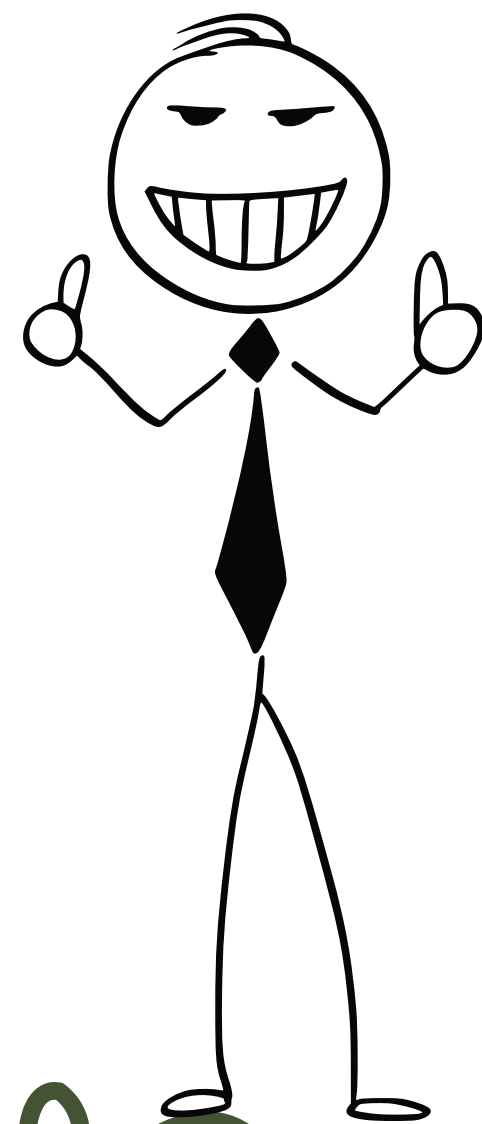

2040

Showing students  
2040 documentaries  
and doing related activities.

6

# GOOD NEWS CORNER

A big board in the hall of the school or in another visible place.

Each week every class should find one piece of good news (about society or environment) to stick on the board. News will be on the board for a week, after that news will be removed and stuck on a book to document week by week progresses.

# FASHION SWAP PARTY

Students bring max 3 items of clothing (sweaters, shirts and t-shirts, pants, tracksuit) they don't use anymore to swap.

It's a donation, items not swapped will be donated by the school to local well known associations that work with people and families in need in our area.

# FASHION SWAP PARTY

Children receive a paper coin with a stamp on it for each item they deliver; teachers check the clothes and receive only ones in good condition.

During the swap day children can select a number of items to take home according to the number of items they delivered. Parents committee will be involved to volunteer at the Swap Party event.

# KIITOS
